WORK EXPERIENCE

Company Technology

I worked for EU IT EXPERTS, most of the company work was under my control, I supervised it.

The jobs I did at this company were social media management, website development, website management, and more.

I quickly learned new technologies that were appropriate for the company.

Company Technology

I completed a 2-month summer internship at PTCS, where I gained experience in website development, application/system development, and social media management, along with other tech-related tasks.

Currency exchange

I Worked at a currency exchange, managing online money transfers, processing payments via FIB, MasterCard, and other services, and performing various in-office tasks.
