## WORK EXPERIENCE

### Company Technology

I worked at EU IT Experts, where I supervised and managed a wide range of company projects. My responsibilities included website development, website management, and social media management. I quickly learned and applied new technologies to meet company needs.

### Company Technology

I completed a 2-month summer internship at PTCS, where I gained experience in website development, application/system development, and social media management, along with other tech-related tasks.

### Currency exchange

I worked at a currency exchange shop, where I managed online money transfers and processed payments through FIB, MasterCard, and other financial services. I also performed various in-office administrative and operational tasks, ensuring accuracy and efficiency in all transactions.
